-  AL-Zinc coat
-  Epoxy primer
-  Acrylic seal coat
-  Organic coat

QUALITY ASSURANCE

Lifestyle Tiles are made to world class standard. We use the finest quality ceramic coated stone chips that resist fading and ultra violet penetration, sealed on to quality aluminium zinc alloy - coated steel. Our exclusive polymer coating completes a finish that will remain beautiful for generations.

Attractive appearance

ATTRACTIVE APPEARANCE

Appearance of Lifestyle roofing has a premium finish and design to satisfy the most discerning homeowner.

Light weight

LIGHT WEIGHT

At just 2.8kg/pc (5.98kg/sqm) Lifestyle roofs are eight times lighter than clay or concrete tiles. This means less strain on the structure, easier and cheaper construction process.

Wind resistant

WIND RESISTANCE

Despite being lightweight, Lifestyle roofs are designed to withstand prolonged exposure to winds up to 233 kph.

Fire resistant

FIRE RESISTANCE

All the materials that go into Lifestyle roofing are non-combustible, ensuring protection from any airborne fires.

Why just build a roof when you can build a Lifestyle?

Standards of Beauty have changed over time when it comes to houses and roofs. The new standard of beautiful homes is having a Lifestyle Roof on your house..

Beauty that lasts a lifetime

Beauty is the quality of being pleasing to look at someone or something that gives great pleasure and this is the essence of our latest Brand - Lifestyle.

Form and function meet on Lifestyle roofs. With texture, style and longevity not found in traditional roofing products, they exude timeless appeal - a good thing because every Lifestyle roof is guaranteed for 50 years.
